

Vision and Mission Statement

Our Vision:

We create energy self-sufficiency and zero emissions by providing easy access to the sun's infinite energy – for a world worth living in.

Our Mission:

- We are the driving force behind utilising the sun's energy.
- We simplify complex systems and develop innovative energy solutions that are tailored to customers' requirements.
- Together with our partners, we provide current and future generations with reliable access to renewable energies.
- With our knowledge and experience, we are able to respond quickly and agile to dynamic markets.
- In doing so, we are accelerating the change to a sustainable lifestyle.

Our Values:

Ethics/Moral

We respect human beings, the environment and nature – without exception.

Honesty

We take it for granted to treat everyone with sincerity and integrity.

Quality and Safety

Mankind and the environment, the product and its utilization – only together we can reach the optimum.

Responsibility

We take the responsibility for the environment, for the satisfaction of staff and customers.

Humanity

We are convinced: social and corporate commitment pay off.

Excellence

We always want to make extraordinary efforts to be an outstanding company.

Consistency

Consistent and sustainable action is our promise.
